The purpose of the Special Education 2011-2012 Data Standards document is to give Kentucky schools and districts a set of guidelines for entering data into the student information system. This document provides a series of screen shots and an explanation of the data elements required for state and federal reporting needs. Data standardization is important to ensure consistency in the data across schools in districts and across districts throughout the state.

Procedures for Releasing a Student from Services

The purpose of this document is to detail the procedures that should be followed when 1) a student is released from special education services when the ARC has determined the child no longer meets the eligibility requirements or the parent/child revokes consent for services OR 2) the student moves out of your district.

**Student released from services (no longer eligible or consent revoked) and student remains in your district**

- General | Enrollment Tab | Special Education section
  - Select the Special Ed Exit Reason
  - Enter the Special Ed Exit Date
  - Change the Special Ed Status to either Inactive or Eligible, Parents Refused, whichever is appropriate
- General | Transportation Tab
  - End date the Transportation of T5: Special Transported, if applicable
- Special Education | Documents Tab:
  - Unlock student’s current IEP
  - Education Plan Editor - Change the IEP End Date to the date services ended
  - Enrollment Status Editor - Change the student Special Ed Status to Inactive or Eligible, Parents Refused, whichever is appropriate
  - Special Ed Service Editor – Change End Date for each service to the date services ended
  - Related Services Editor - Change End Date for each service to the date services ended
  - Lock IEP and save
- Special Education | Team Members Tab
  - End date each Team Member listed for student to the date services ended

**Student moves from the district or otherwise withdraws**

- General | Enrollment Tab | Special Education section
  - Select the Special Ed Exit Reason
  - Enter the Special Ed Exit Date
  - Change the Special Ed Status to either Inactive or Eligible, Parents Refused, whichever is appropriate
- General | Transportation Tab
  - End date the Transportation of T5: Special Transported, if applicable.
- Special Education | Team Members Tab
  - End date each Team Member listed for student to the date services ended

**NOTE:** When a student moves from the district or otherwise withdraws, the IEP should **NOT** be unlocked and end dated marked as *Inactive* on the IEP | Enrollment Status editor. This should **NOT** be done as it will cause a student who enrolls in another district and/or returns to your district not to have a current IEP on record.

### Data imports relevant to Special Education:

#### Enrollment History Import Wizard

This import wizard will allow user to select any previous enrollments for students that need to be imported into the new district database.

</tbody>
</table>

**NOTE:** If former district marked student’s Special Ed Status to Inactive before releasing records, this will need to be changed to Active in new district database student record.
NOTE: Currently there is an issue with the Special Ed Evaluation Import Wizard not importing in the Conference Summary. If the Conference Summary does not Import then you must import the Conference Summary as a PDF, the recreate the Conference Summary as a Editor based document so that you get the Evaluation Date, ARC Date, Eligibility Determination Date, and Primary Disability in the system.

This import wizard will import the student’s most recent ‘locked’ Conference Summary from the former district to the new district database. When complete, the Conference Summary will be available as an editor in the student record, Special Ed | Documents Tab.

1) Select the Locked indicator, if the Conference Summary needs to be imported as a locked evaluation
2) Click Next
3) Click OK on dialog box
4) Verify in student record that the Conference Summary is now available as an editor based document; also, mark Evaluation Complete if Locked was not selected in previous screen.

NOTE: If ‘Import as PDF only’ is selected, the document will be imported as a PDF, not as an editor based document.

This import wizard will import any special education FDF documents (non editor based) attached to the student’s record from the former district to the new district database. When complete, the documents will be available as PDFs in the student record, Special Ed | Documents Tab.
NOTE: If former district student record has an ‘unlocked’ IEP at time of transfer records, the former district IEP will only be available here to import as a PDF document.

1) Select any documents that do not need to be imported by selecting the ‘Do not import the following document’ indicator.

2) Deselect Archive indicator if the document does not need to be archived when imported.

3) Save

4) Click ‘OK’ on dialog box

5) Verify in student record that requested documents are now available in student record.

NOTE: These documents will open outside the IC system into Adobe; therefore, no changes can be made to the document; user will have the ability to save to desktop or print.

This import wizard will import the student’s most recent ‘locked’ KY IEP from the former district to the new district database. When complete, the KY IEP will be available as an editor in the student record, Special Ed | Documents Tab.
1) Listed to import will be IEPs with Services and/or Related Services that are locked and attached to the student’s former district record

2) Select the Locked indicator, if the KY IEP needs to be imported as a locked plan

3) Each Service must be mapped to a service within your district by selecting the appropriate from the drop list

4) Each Position can be mapped to a provider or position within you district by selecting the appropriate from the drop list

5) Click Next, IEP will be imported

6) Select OK

7) Verify in student record that the KY IEP is now available as an editor based document

8) Mark Plan Complete in the Education Plan editor if Locked was not selected in previous screen.
